UN, the tool in the hands of the US and West, removed Gulbuddin's shameful name from its black list, so this international criminal can continue his crimes and brutality under the wing of the US. By removing the name of the most heinous Afghan criminal against the wishes of the majority of our people, the UN has committed yet another unforgivable treason against us. Under the beautiful guise of "peace", they are bringing back the most savage enemies of peace and the cause of the sufferings of our nation, so they can ride roughshod on our wounded people once more.

Only some months back, Gulbuddin pledged his allegiance to ISIS, and his spokespersons shamelessly defended suicide attacks on television. How is it that the UN removed this infamous murderer from its black list, by the US's request? Is it because the US wants to use its long-time and well-experienced agent for the last time as he nears his grave? Throughout his political life, Gulbuddin has proved that he is ready to become the chained servant of any country in return for Dollars and power. This rascal did not even hesitate to become the lapdog of the devious Iranian and Israeli government.

However, the removal of this CIA and ISI agent did not come as such a surprise for our suffering people, for in the past decade and a half, murderers like Gulbuddin were imposed upon our people, just by changing their appearances and retaining their fascist thoughts. Only Gulbuddin was missing from this party, and with his arrival, this circle of national traitors shall be complete. During this period, other members of this bloody party, Farooq Wardak, Karim Khuram, Halim Fidayi, Omar Daudzai, Waheedullah Sabawoon, Hadi Arghandiwal, Mohammad Khan, Juma Khan Humdard, were part of this puppet regime and ruled as mafia traitors.

I have said this in the past and say it again: if peace is achieved through criminals and terrorists like Gulbuddin, Rabbani, Abdullah, Dostum, Mohaqiq, Sayyaf, Khalili, Hanif Atmar, Atta, Ismail, and others, it is more dangerous than war. The result of such ridiculous peace is freeing wild bloodhounds upon our defenseless people; not to mention that peace without justice is meaningless. The installation of Gulbuddin in Kabul, only serves Ashraf Ghani and his foreign masters, therefore tying the word "peace" with this action is a dirty game and deception of our people.

Even if Gulbuddin is forgiven a thousand times and whitewashed by his foreign masters, the UN, and a group of US minions in Arg, our people, especially the people of Kabul who still remember his brutal rocket attacks and crimes during the Kabul war, will never forgive him. Like his partners-in-crime and brethren-in-creed, the Jehadi and Taliban figures, the people of Afghanistan have sentenced them to the most extreme penalties in their head. Since he is guilty of treachery, he can only continue his shameful life in a corner of Kabul under the protection of hundreds of heavily armed bodyguards.
